Planet Earth Series

Purpose of Activity: To expose the audience to our natural world in an effort to raise their awareness about the importance of making changes to preserve our environment.

Objectives/Learning Outcomes:

By actively participating in this activity, participants will:

- Understand the negative impacts we have on the planet.
- Recognize possible efforts that can help the environment.

Materials Needed:

- There is a DVD copy stored with the Director for Sustainability Education available for check-out.

Summary:

Planet Earth is the ultimate portrait of our planet. This stunning television experience captures rare action, impossible locations, and intimate moments with our planet's best-loved, wildest and most elusive creatures. From the highest mountains to the deepest rivers, Planet Earth takes you to place you've never been to experience sights and sounds never before captured on film. Prepare to be overwhelmed by the beauty and majesty of Planet Earth.

Facilitation Guide:

Watch the movie and prepare a space for discussion afterward.

Discussion Questions:

- What did we just see? What stood out to you? What was missing? What did you observe about your reactions and the reactions of those around you?
- How did you feel as you watched the show? What feelings stick out as positive ones? Negative ones?
- What did you think of the show? Why do you think we watched it, what does it have to do with sustainability? How do you define sustainability (Perpetual and cooperative environmental, social, and economic systems)?
- What is the most important message that the film is intending to communicate?
- What can you do with this new information? What action will you take, if any? What messages will you now try to convey to others?
